The National View

The Mexican Situation.—That President Wilson has named a strong Mexican commission, in Secretary Lane, Judge George Gray and Dr. John R. Mott, is generally conceded. Secretary Lane has a pretty keen grasp of the Mexican situation, as is evidenced by his frank waving aside of all the balderdash about the first invasion having been to force a salute of the American flag and his frank avowal that its sole purpose was to drive Huerta out. Judge Gray is a man of demonstrated judicial attainments little given to extreme partisanship. And Dr. Mott's wide experience in connection with the Y. M. C. A. is likely to prove valuable. And yet, in the light of past experiences and present events, that this commission has any mission other than to "tide over" the Mexican situation until after the election is difficult to perceive. Funston has recommended the withdrawal of American troops from Mexican territory and Pershing reports that Villa's power is crushed.

As the declared primary purpose of the conference was to discuss conditions on which the troops would be withdrawn, its reason for being appears to have passed before it came into existence. There is, of course, another phase. Carranza wants money and President Wilson wants Americans to advance it. Possibly, after all, the chief purpose of the conference, aside from tidying over the situation until after election, is to provide American funds for Carranza. The American commissioners will probably spend several delightful months at the sea-shore, at the government's expense, and yet they probably are entitled to sympathy because of the great likelihood that they will be made fools of, as were the Mexican delegates to Niagara Falls, two years ago.

Truth Will Out.—Those Democrats who bitterly resented the Republican charge that the president advocated a tariff commission purely as a matter of political expediency have become deeply concerned over their realization that they have provided salaries of only \$7,500 a year for the six members of the tariff commission, whereas the members of the farm loan board will receive \$10,000 a year. This is, of course, simply a further proof that the Democrats generally have little faith in a tariff commission and that in creating it they were merely obeying the president and not enacting what they regarded as legislation of importance. An effort has been made to put responsibility for the lower salary of the tariff commissioners on the Republicans—who have extremely little faith in a tariff commission to be appointed by President Wilson—but investigation proves that the man who was really responsible for \$7,500 salaries is Rep. Cullop, of Indiana, a tariff for revenue only Democrat. As compared with the \$12,000 a year of the federal reserve board and the \$10,000 a year of the farm loan board, the \$7,500 of the tariff commission looks small.

A Sad Disappointment.—Secretary McAdoo, who is enjoying the cool weather of New England and at the same time seeking light on the manner in which the farm loan bank legislation is being received, has suffered a serious disappointment. It was expected that the enactment of this legislation would institute one of the strongest talking points of the administration in this campaign. On the contrary, Mr. McAdoo is finding that there has not been and is no demand for a government bank to make loans to farmers in the New England states. He has visited Maine, New Hampshire, and Massachusetts and in each has been informed that the New England farmer can get all the money he can reasonably expect from the savings banks and similar institutions with which he is accustomed to do business. It is becoming evident that only where the federal loan bank is prepared to loan money at considerably less than its market value will it be particularly welcomed. It is possible conditions may prove different in the west, but the Wilson administration can make little capital out of this piece of legislation in New England.

Wilson Will Campaign.—The White House announced that President Wilson would not go on the stump. Then Gov. Hughes started on his western tour and started to ex-

IMPORTANT GATEWAY JABLONICA IS IN WAR

Recently Occupied by Russian Forces the National Geographic Society Says.

(SPECIAL TO THE TELEGRAM) WASHINGTON, Aug. 29.—"Jablonica and the pass of the same name, which the Russians are said to have occupied, constitute one of the most important gateways through the high Carpathian mountains from Galicia and Bukovina into Hungary," says today's war geography bulletin of the National Geographic Society issued from its Washington headquarters.

"The Carpathians in this vicinity tower to a height of 7,500 feet, but slope gradually down to the southwest through the country of Marmaros. At a distance of forty-five miles from the crest of the capital of the province, Marmaros-Sziget, is situated at a level of only 900 feet above the sea.

"Jablonica clings to the north-eastern slope of the Carpathians, between the headwaters of the Pruth and the Golden Bistritza rivers, and is a small station on the 72-mile

railway line connecting Stanislau, now in the hands of the Russians, with Korosmezo, just beyond the pass, to the southwest. Near Korosmezo are valuable petroleum springs.

Important River.

"The important River Theiss, chief affluent of the Danube, and, next to the latter the largest waterway in Hungary, has its source in Marmaros county. Situated on the Theiss and connected by rail with Korosmezo is the flourishing town of Marmaros-Sziget, with a population of 21,000. This will be the first important objective of the Russians after they cross the Carpathians by way of the Jablonica Pass and begin their descent upon the plains of Hungary.

Marmaros-Sziget is most pleasantly situated at the juncture of the Tiza river with the Theiss. To the east tower the well-wooded, snow-capped Carpathians. In this town before the war citizens of many nationalities were busily engaged in an extensive lumber trade and in hand-

ling the enormous output of sale (a state monopoly), taken from the mines of three villages contiguous to the county capital. The annual fairs which were held here were an important feature of the industrial life of this part of Hungary, and presented a most picturesque scene to the traveler. A babel of tongues

and a kaleidroscope of color resulted from the mingling of Ruthenians, Roumanians, Magyars, Gipsies, Slovaks and Armenians, each group dressed in the multi-hued costumes peculiar to their own nationality.

Salt Mines.

"The salt mines of the Marmaros-Sziget district have been worked for centuries, and many Americans who have visited this part of Hungary have visited the deep galleries whose rock-crystal walls glitter as if studded with countless iridescent

jewels as they reflect the rays of the electric lights. One of the most interesting mines is that of Ronasek, which contains a great subterranean salt lake having a depth of nearly 300 feet.

"Hunting for bear and lynx on the wooded slopes of the Carpathians in the vicinity of Marmaros-Sziget is a favorite pastime of the Hungarians. The accommodations for sportsmen are not as satisfactory here as in the High Tatra mountains, however."

FAMILIAR SAYING ILLUSTRATED.
"He hung on her lips."

Nervous Periodic Headaches

This trouble commonly called "tick headache," is said to be due to the retention of urea in the system. Often it is stated that a poor condition of the blood is a cause of these headaches, or that it is a nervous condition and in certain cases, no doubt this is true.

Where treatment is demanded, it is more for the pain than anything else, and Dr. A. F. Schellhardt of Louisville, has found anti-kamnia tablets to give prompt and satisfactory relief. "Heat should be insisted upon," he says, "and the patient should go to bed, darken the room, and all the attendants and family should be as quiet as possible. An emetic will sometimes shorten the attack. The bowels should be kept open with 'Actoids'; a hot bath and a thorough rub-down with a coarse towel, often give grateful relief. Two anti-kamnia tablets when the first signs appear, will usually prevent the attack. During an attack, one tablet every hour or two will shorten the attack and relieve the usual nausea and vomiting." These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also unexcelled for nervous headaches, neuralgia and all pains.

NIGHTS BROUGHT THIS USER REST

Because Nerv-Worth Calmed and Steadied His Nerves.

This local Nerv-Worth endorsement is worth repeating. It was given some weeks ago to Burke's Drug Store by Omer Talkington, the well known Clarksburg merchant:

"I had stomach trouble and nervous indigestion. Could not eat fresh meat without it distressing me. Some gases on my stomach which made me nervous. Poor sleeper, jerked and startled in my sleep. My sleep did me little good. Was not refreshed when I'd get up in the morning. Have taken one bottle of Nerv-Worth. I feel quite a bit better. Sleep fine. More refreshed and rested in the morning than I was ever before. I can eat meat and most everything now. My general condition is improved. I recommend Nerv-Worth as being a fine medicine."

Your dollar back at Burke's Drug Store if Nerv-Worth does not help YOU.—Advertisement.
